

THE INDIANA RAIL ROAD COMPANY

(INRD)

**FREIGHT TARIFF INRD 7202
FUEL SURCHARGE**

APPLICATION: This publication applies to linehaul freight rates and charges in tariffs, contracts, private price authorities or other pricing documents, that both reference this publication and are entered into or issued and effective on or after April 26, 2007.

In the event that the monthly average price per gallon of highway diesel fuel (as determined below, the "HDF Average Price") equals or exceeds 200.0 cents, INRD will apply a mileage-based fuel surcharge to the linehaul rates and charges described above. The fuel surcharge will be applied to each qualifying shipment having a bill of lading or other shipping instruction dated on or after the first day of the second calendar month following the calendar month of a given HDF Average Price determination. EXAMPLE: The HDF Average Price for February would be used to calculate the applicable fuel surcharge for qualifying shipments having a bill of lading or other shipping instruction dated April.

The "HDF Average Price" for a month will be the average price for that month of U.S. No. 2 Diesel Retail Sales by All Sellers, as determined and published by the U. S. Department of Energy, Energy Information Administration ("DOE-EIA") Note 1. That average price will, in calculating the HDF Average Price, be rounded to the nearest 1/10th of a cent applying conventional rounding principles. The fuel surcharge will be 1¢ per mile per railcar for every 3¢ per gallon, or portion thereof, by which the HDF Average Price for the calendar month two months prior to the calendar month of shipment exceeds 199.9 cents.

If DOE-EIA ceases publication of the above information, INRD will employ a suitable substitute source of price or measure.

The mileage to be applied in calculating the fuel surcharge will be based on rail miles between origin, interchange(s) and destination, and can be found in FT INRD 9400 available at www.INRD.com.

The following table reflects a sampling of the fuel surcharge within the included HDF Average Price ranges.
